

Employee Commitment

Assisting Angels understands it is an honor and a privilege to be invited into a client's home. Therefore, we only hire caregivers who share in our commitment to provide home care services with compassion, excellence, and reliability.

In order for you as a caregiver to work for Assisting Angels, we require you to commit to the following.

1. I will wear my nametag at all times while with a client (this may be the day your client can't remember your name.)
2. I will have on a smile and a positive attitude always!
3. I will dress appropriately, in an Assisting Angels scrub top, pants, and non-skid shoes as outlined in the handbook.
4. I will always be on time. If an emergency arises, I will contact Assisting Angels immediately.
5. I will be aware of who my client is. I will review patient information before going to work. I will make sure I know where I am going BEFORE my scheduled shift.
6. I will care for my client like I would care for a family member by providing socialization, conversation, and emotional reassurance.
7. I will always drive myself alone to my client's home. (Client Privacy policies prohibit you from being dropped off and picked up by a third party.)
8. I will protect my client's dignity and privacy by keeping their personal information confidential at all times.
9. I will NEVER offer to provide my personal phone number to a client or their family. If they ask, I will give them the office number 864-288-7100.
10. I will NEVER contact my client or their family directly. I will direct all communications regarding my client through the Assisting Angels office.
11. I will observe, report and complete documentation of services provided. Documentation will be objective not subjective and I will turn in care log sheets to the agency office weekly.
