# **G. Proulx Building Materials LLC**

**“Our service makes the difference”**

G Proulx Building Materials has been serving South Florida’s fast paced construction industry since 1979. Our reputation and success is based on our thorough understanding of the construction market and the special needs of our customers. Our two million dollar inventory and complete fleet of trucks allow us to professionally service all jobs, from the most complicated commercial project to the simple residential remodel. We have established ourselves in the market place as a supplier that prides itself in the quality and variety of our products, the high level of service we provide and our commitment to customer satisfaction above all else.

We at G. Proulx believe that in order to properly service our customers we must establish and maintain individual relationships. It is necessary to completely understand the people we serve and the special needs of different construction projects. In the construction industry situations change day to day and no job ever goes exactly as originally planned. We train our employees to be open to these changes and quick to respond in order to help our customers keep their clients happy and their projects moving ahead. We also feel that it is important to maintain strong ties and open lines of communication with our vendors so that we may have product information and manufacturers support readily available for our customers.

Our state of the art facility is conveniently located just west of the Ft Lauderdale/Hollywood International airport. The design of our warehouse, along with our hours of operation, allows quick and easy pick up of materials on the way to your job sites. We also offer “one stop shopping” with a showroom that carries a full line of tools and accessories for the trade. The size of our warehouses enables us to carry a wide variety of materials to meet the needs of our customers.

Incorporating these ideas into our everyday operations and the mindset of our staff allows us to build long lasting relationships that are beneficial to all involved. It is this philosophy that has enabled us to grow and become a leader in our industry.
