

## NELSON &amp; HAMMONS, APLC

JOHN L.  
HAMMONS

## Standing Up For People Who Cannot Stand Up For Themselves

FOR ALMOST 30 YEARS, JOHN HAMMONS HAS BEEN CALLED upon by individuals, as well as other lawyers, to assist them in handling medical malpractice cases. From his office in Shreveport, Hammons remains committed to fighting for quality medical care for his clients and their families as well as obtaining just compensation for those who have been seriously injured as a result of substandard medical care.

**EXPERIENCED AND KNOWLEDGEABLE** When searching for the right attorney to evaluate the quality of medical care provided to a patient, a victim of medical malpractice or his family can rely on the integrity and commitment that has characterized Hammons' law practice for more than three decades. Medical malpractice litigation is highly complex and time-consuming and requires a unique devotion to detail and an appreciation for both the nuances of the law and a keen understanding of applicable medical standards. John Hammons has focused his law practice almost exclusively on medical malpractice litigation and therefore possesses the skills, the knowledge of law and medicine, and the experience to provide superior representation to his clients.

Hammons notes, "I truly love what I do and believe I am doing what God called me to do. My law practice is more than a job or even a profession. It is the opportunity to make a difference in the lives of

patients and their families who have suffered serious injury or even death due to poor medical care. It is both a privilege and a duty to seek justice for those who are victims of negligent medical care."

With an in-house registered nurse and professional relationships with multiple physicians around the United States, John Hammons has uniquely positioned himself to handle victims' malpractice claims.

**HAMMONS NAMED TO LOUISIANA SUPER LAWYERS® FOR THIRD CONSECUTIVE YEAR** John L. Hammons leads a firm that devotes its resources and efforts to investigating and prosecuting medical malpractice cases in a thorough and professional manner throughout Louisiana. He was among the first lawyers in Louisiana to emphasize the handling of malpractice cases three decades ago and has been at the forefront of both the development of Louisiana's medical malpractice law and precedent-setting cases. Having been instrumental in formulating the Louisiana Medical Malpractice Act, Hammons is often invited to speak before legal and medical groups.

Hammons believes it is critically important to obtain legal advice from attorneys who are especially equipped with training and experience to handle this complicated and professionally sensitive area of Louisiana law. "Thorough investigation and professional resources are critical to successfully pursuing meritorious medical malpractice cases," he says.
