

Wolfchase Animal Hospital

Boarding With Us

Thank you for choosing to board your animal with us. We understand that you are leaving your 'baby' with us and we promise that we will take very good care of your pet. We try to make each and every one feel loved and at home. The dogs are walked outside at least twice a day. We can observe any elimination problems and we will take steps to correct it immediately.

We let our guests have their own toys and bedding and we will feed any special diets you bring. However, we do provide all the essentials including bedding, food, and bowls. We feed Science Diet Canine and Feline Maintenance.

We require that your animal is current on all vaccinations in order to board with us. This is for the safety of not only your pet, but for everyone in the kennel. *If your pet requires medications, we will be happy to give them for an additional \$2.00 a day.*

Owner _____ Animal's Name _____

Breed _____ Color _____ Age _____ Sex _____
